C. N. ELWIN, Phm. B.  
Druggist and Optician

Blairmore, Alberta

Dr. G. D. Stanley, member for High River in the provincial legislature, has been named as possible successor to the late Hon. A. G. MacKay as minister of health and municipal affairs. "Although of opposite politics, Dr. Stanley is possibly the one man in the present legislature of equal enthusiasm to the late minister in the promotion of health affairs."

"Yes" said the Chinaman, "you know the proverb, I know the proverb, but does the dog know the proverb?"

## Coal Company Proposes To Build Ward School

At a meeting of the school board on Friday night last, an important announcement was received from the manager of the West Canadian Collieries, Limited, to the effect that they are prepared to furnish the site and build a school in the west end for the benefit of small children, who at present are obliged to walk from a quarter to a half mile to school. Besides furnishing site and building, which will be modern in all its applications, all salaries in the way of teachers, salaries, janitor, fuel, light, water, etc., will be borne by the company for at least two years, and a liberal percentage of the cost thereafter. This school will look after townsite children of the primary and first grades. The secretary of the board has been instructed to acknowledge receipt of the company's offer, and to inform them of the board's willingness to accept.

Plans and specifications for the proposed school, in addition to the main school building, were submitted and accepted, and a by-law was read a first and second time, providing for the raising of a sum sufficient to cover cost of such addition. This by-law, which will be found elsewhere in this issue, has been submitted to the Board of Public Utilities Commissioners for their consideration, and there should be no reason why such should not be passed by them. In the event of approval by that board, a vote of ratification will decide as to whether or not the people are in favor of relieving the present burden of maintaining the school and of providing for conditions of the future. Tenders will be invited for the proposed building, and construction work will start as soon as decided by the ratification and commissioners.

The resignation of J. M. Carter as trustee officer was accepted, and J. B. Harmer was appointed in his stead.

Arial Brothers, of Lethbridge, have secured the contract to operate the entire interior of the Cosmopolitan hotel. Mr. Belecky, the new owner and proprietor, intends to make it a popular hotel, and when the Arial Brothers are through with their work, the Cosmopolitan will represent the very best in attractiveness and comfort. Arial Brothers are sons of a former delegate of the Dominion parliament buildings at Ottawa, and attend only to high-class work. They intend to locate here for awhile, having in sight a number of contracts in the Past towns.

The regular monthly meeting of the local Red Cross Society will be held at the home of Mrs. Raoul Green on Tuesday, June the 8th. Tea will be served at 4 o'clock for 25 cents. Everybody welcome.

William Lancaster, inspector of mines for the Kootenay district, was killed instantly on Saturday afternoon when his automobile plunged over a small bridge near Fernie.

A local man paid a fine of \$5 on Monday for having used profane language on the street.

## Daylight Train Service

Daylight train service, between Lethbridge and Carlton and Cranbrook, was inaugurated on Tuesday and is already proving to be a great boon to this district. Following is the time-table for this new service:

Westbound	Eastbound
8.00 ..... Lv. Carlton Ar.	19.50
11.20 ..... Ar. Lethbridge Ar.	16.30
13.10 ..... Lv. Lethbridge Ar.	16.00
13.30 ..... Lv. Cranbrook	15.30
13.52 ..... Poncar	15.12
14.10 ..... Macleod	14.55
14.35 ..... Pelican	14.45
14.45 ..... Chuklo	14.22
14.50 ..... Brooks	14.12
15.20 ..... Pincher	13.63

The above two streams are the only open waters for fishing when the season comes in, June 15th

## Blairmore School District No. 628

## By-Law No. 4

### A BY-LAW relating to the issue of Debentures of the Blairmore School District No. 628, sit. the Province of Alberta.

WHEREAS it is necessary and desirable that the sum of \$14,000.00 (Fourteen Thousand Dollars) should be borrowed on the security of the Blairmore School District No. 628 of the Province of Alberta, for the purpose of erecting an additional two rooms to the present building; also equipment, apparatus, and furniture for same, and installation of a septic tank and repair to property, and that debentures covering same should be issued repayable to the bearer in 10 equal consecutive annual installments with interest at the rate of not more than six per cent per annum.

NOW THEREFORE, The Board of Trustees of the said School District enacts as follows:

(1) That the necessary proceedings be taken under the school ordinance to obtain the sanction of the Board of Public Utilities Commissioners of Alberta to the said loan.

(2) That upon the Board of Public Utilities Commissioners authorizing in writing, the Board of Trustees to borrow the said sum, pursuant to the said ordinance, debentures of the said district be issued for such amount as is so authorized, payable to the bearer in 10 equal consecutive annual installments with interest at not more than six per cent per annum; payable annually, and said debentures shall be executed by the Chairman and Treasurer of this Board.

A. HAMILTON, Chairman  
J. B. HARMER, Secretary-Treas.

## BABY COVERED WITH ECZEMA

When 4 Days Old, Cross and Cried, Cuticura Heals,

"My twin brother had eczema when he was about four days old. It came in little pimples and when it was over, it was covered. He was so cross that he could not sleep, and I could not sleep." "This lasted about two months before we used Cuticura. It helped him, so we bought two boxes of soap and two boxes of Ointment." (Signed) Miss Alma Williams, Young Cove, N.B., May 10, 1929.  
Use Cuticura Soap, Ointment and Talcum for all toilet purposes.

Soap 25c. Ointment 25 and 50c. Sold through all drug stores and by Lorne's Limited, St. Paul St., Montreal. Cuticura Soap shaves without nicks.

## Love of The Wild

BY —  
ARCHIE P. MCKISHNIE  
Printed by Special Arrangements with Thos. Allen,  
Toronto, Ont.

(Continued.)

A pair of woodcock arose from a swale and passed between him and the water. Against the moonlight their bronze breasts flashed out for a second and faded, and their mellow wingnotes reverberated dingly from the shadow. Right across their track a flock of duck quacked, spreading their ready ponds of Rond Eau Bay.

"Joe," the young man said wistfully, "it's funny, isn't it, now? Some goin' and some comin'." Woodcock flying south 'cause they hate the cold; ducks flyin' north 'cause they love it.

They passed on, the dog taking the lead. At the edge of a wide clearing they paused alert. The dim out-line of a log house lay before them. From the windows streamed the glow of a candle-light. Across the open from the house a figure was advancing, and to the dog's low growl the boy whispered, "Be still, Joe." When the figure came close to where they waited the boy stepped out and stood before it. His arms were folded tight across his breast and his mouth narrowed to a thin line.

"Did you tell her?" he questioned, quietly. "The tall man thus accosted stepped back with a startled exclamation.

"Well, Boy McTavish, is it you?" Young McTavish half crouched, then quickly drew himself up again.

"Yes, it's me, teacher," he said. "What I want to know is, did you tell her?"

"Yes, I told her."

"All right, get out of my way, then."

"Wait a moment, Boy," returned the man. "You understand, don't you, that it is my duty to report all pupils who do not attend school regularly?"

The boy changed his position so that the moonlight would fall full upon the face of the man before him. "Do you suppose I care for your reportin' me?"

The tone was wondering, contemptuous.

"Why, teacher, you can't hurt me, and you know it. Do you suppose was thinkin' of myself when I asked you not to tell her? And do you suppose she would have done what you'd done?"

"Hush!" warned the other, "I can't let you tell me in this way, Boy. Remember who I am. I won't have it say."

"Well, I can see how you're goin' to help me. I want to tell you somethin', Mr. Simpson, and you've got to listen. Don't you move or by God I'll sic Joe on to you. I'm goin' to tell you again what I told you before. Ma's sick in bed and maybe she ain't never goin' to get up no more. I told you that, remember?"

"Yes, you told me that—well?"

"Well, she's been thinkin' that I've been to school and you and me know I haven't. I couldn't stay in your school and live, but I was willin' to take the hick'ry or anythin' you said, if you wouldn't tell her."

The teacher was silent.

"Pup," said the boy, "see that he answers up better."

**MURIN'S Basic, Reinforce, Soothe, Heal—Keep Your Eyes Strong and Healthy. If They Are Smart, Rich, or Bright, You Can Be Too. Indicated or Granulated, Two Murins often. Safe for Infant or Adult. All as Murins in Canada. Write for Free Book. Murin Company, Chicago, U.S.A.**

The dog growled and the man spoke quickly.

"It was only doing my duty." "And it's your duty to tell a dyin' mother that her boy's goin' to hell—I say goin' to hell, and he so near the other place? Do you call that duty?" demanded the boy bitterly.

The moon floated further into the open, lighting up the two; the boy erect, his accusin' with the shaggy dog behind him and the tail man half bent in an attitude half defiant, half ashamed.

"I didn't quite understand, Boy," apologized Simpson. "I am sorry, believe me I am. No, I didn't understand."

"And you never will understand. You're—maybe all right in your own world, teacher, but you ain't at home ours. You don't sit this place, and there ain't no use of you ever tryin' to understand it or us. Teach'er, you take my advice—go back to the clearin'."

The boy spoke slowly, weighing each word and closely watching the face upon which the white moonlight fell. It was a young face, not many years older than his own. But it was weak and concealed. It grew sullen now, as the significance of young McTavish's words became apparent.

The man turned toward the path to the creek, and the boy stood tall and straight before him.

"Of course, you understand why us Bushwhackers can't be friends with you, teacher," said the boy. "It's because you are one of them—and they are doin' all they can to break into our little world."

He pointed toward the open.

"Out there is where they belong: them and you. Go back there, teach'er, and tell them to go. It's best, I tell you—best—for everybody."

Away down across the clearing to the far bank of the creek, a burst of yellow-red light fluctuated against the skies, and the metallic ring of a saw swang out, silencing the whip-poor-will's call. Colonel Hallibut's mill was running overtime. All this stimulated that restlessness that had lately been born in the soul of the young bushwhacker. He stepped out from the shadow and shook his fist at the red glow.

"Damm' em," he cried. And paying no heed to the figure which stood with bowed head, on the path, he stepped away across the clearing toward the pale light streaming from the log-house window.

CHAPTER II.

Boy opened the door and passed silently inside. Beside the wide fireplace the long gaunt figure of a man was bent almost double. He had a thick shock of sandy hair tinged with gray. His be-whiskered face was hidden behind tobacco smoke. A time-stained fiddle lay across his knee, his sock feet rested on the neck of the fiddle, and the tatty glow of the fire threw a grotesque shadow of him against the white-washed wall. A pair of high cowhide boots were greased and shined, rested on his one side, while a piece of white second-hand taffeta, crudely shaped to the growth of a hand, lay on the other. In one corner of the room a bunch of rusty rat-traps lay, and across doors-savers on the wall hung a long rifle, a short one, and a double-barreled fowling piece.

The lad simply glanced at the man without speaking, and taking the dipper and wash-basin from the bench, passed outside again. When he re-entered, a girl of about eighteen years of age was pouring tea from a pewter pot into a tin cup. Her face was toward him, and a smile chased the shadow from the lad's face as his eyes rested upon it. He dried his hands on the rough towel hanging on the door and crossed over to the table. He drew back the stool, hesitated, and asked of the girl in a low tone: "Is she sleepin', Gloss?"

The girl shook her head. Her hair was chestnut-brown and hung below her waist in a long, thick braid. Her eyes were large, gray, and long-lashed like a fawn's.

"You'd best not go in yet, Boy," she said. "Granny's readin' her the chapter now."

"I just go in for a minute, I guess."

He entered the inner room and stood gazing across at the low bed upon which a wasted form rested. There is one, which visitors are gravely told necessities keeping a soldier on guard in the midst of a lawn in front of an old castle because several hundred years ago a certain queen's favorite rose stood there. A sentinel had been set to guard the rose, and sentinels kept on guard the spot long after both the queen and her rose have passed away.

Ancient Customs Survives

Tourists to England are very much surprised by some of the strange customs which still survive. There is one, which visitors are gravely told necessities keeping a soldier on guard in the midst of a lawn in front of an old castle because several hundred years ago a certain queen's favorite rose stood there. The foregoings were the principal points made by Hon. C. A. Dunning, Minister of Labor and Industry in the Saskatchewan government, during the first public announcement on the government's policy since the creation of the bureau of industry.

Serbian Mass Illiteracy

In Saxon, Bavarian, Wurtemburg,

and some other German states only rarely can a person be found who cannot read and write, while in Serbia, prior to the war, 78.9 percent of the adult population was illiterate.

In the eruption of 1768 the Cossacks sent ashore 130 miles.

Baby Discovery is Reported

Reports of the discovery of oil

in northeastern Siberia have reached

Name, and many boars are awaiting

the opening of navigation in readiness

to carry men to the new fields.

## British Methods of Destroying Mines

Those Washed Ashore Are Rendered Safe by Experts

Sir James Craig, financial secretary to the admiralty, in a written parliamentary answer to Brigadier-General Surtees, outlined a method of dealing with drifting mines.

Firing a destroyer from the nearest naval base, he writes, isolates all the authentic reports of drifting mines.

Second, the fishery protection boats stationed on a principal fishing grounds destroy all drifting mines met with.

Third, all merchant and fishing craft, with few exceptions, are supplied with rifles and ammunition, on application for mine destroying.

Fourth, experts in rendering mines safe are stationed at different places round the coast, who render safe all mines washed ashore.

No vessels are solely employed in searching for drifting mines. The number of drifting mines destroyed by His Majesty's ships from February to May 1 was 26.

## Lynching to be Abolished

South for Square Deal for Blacks, Says Educator

Prediction that the next two years would see lynchings and mob violence wiped out if whites and blacks only "keep their feet on the ground and maintain level heads in these days of stress and tension," was made by Dr. Robert R. Moton, principal of Tuskegee Institute, in an address before the Southern Sociological Congress.

"I think I know what I am saying," said Dr. Moton, "when I say that there never was, not only a more friendly attitude toward the negro, but that there never was so many ways as there are for the South who are determined that the negro shall have a fair chance. This growth in sentiment with respect to seeing that the negro gets a square deal is reflected by the determination of such a large number of Southern Governors to put down mob violence and to see that the negro gets justice. As a result of this growing sentiment I expect to see in the next few years lynching and mob violence wiped out."

Records at Tuskegee Institute, Dr. Moton said, show that thus far this year there had been six lynchings compared with eighteen for the same period last year.

## FALLING? HERE'S WHERE IT SHOWS

Don't worry! Let "Danderine" save your hair and double its beauty

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of delightful "Danderine" at any drug or toilet counter for a few cents, pour a little in your palm and rub it into the hair. After several applications the hair usually stops coming out and you can find any dandruff out.

Your hair will grow strong, thick and long, appear soft, glossy and twice as beautiful and abundant. Try it!

## Advance Transportation For Domestics

Manitoba Government Will Help To Bring British Women Into The Province

As a result of representation made to the Manitoba provincial government by Charles Robson, who has recently returned from Great Britain where he was sent by the federal department of immigration to enquire into the conditions for the emigration of British women to Canada, Hon. Vallette Whistler, premier of Manitoba, informed the intention of the Manitoba government to undertake a policy of advanced fares for bona fide domestics.

"For the present and because the undertaking will be more or less of an experiment, it has been decided," said Mr. Whistler, "to limit the operation of the scheme to 100 women. The advance to each woman will approximate 50 to 75 percent of the fare and the government is providing for an expenditure of \$7,500 this year. It is hoped that these women will be recruited through a country-operation between federal and provincial governments' co-operation.

"For the present and because the undertaking will be more or less of an experiment, it has been decided," said Mr. Whistler, "to limit the operation of the scheme to 100 women. ### Music by Long Distance Wireless

Remarkable Experiment Successfully Carried Out By Wireless Telephone

A large audience at the Chateau Laurier assembly hall heard perfectly a gramophone playing in Montreal and also Miss Lutton singing in that city over one hundred miles away by means of wireless telephone. It was arranged by Dr. A. S. Eve, in connection with an address on some great war inventions, before the Royal Society of Canada. The experiment took place at nine o'clock and by means of a Magna Vox the voice of the distant singer was quite distinctly heard in all parts of the hall.

#### Presence of Mind

Scot.—Two eggs, please.

Waiter.—Which way will you have them done?

Scot.—Any difference in the price?

Waiter.—No.

Scot.—Well, I'll ha' them w' a wee bit-ham.

America gets more than one-third of its glass from Pennsylvania.

### Healthy, Happy Boys and Girls

Is your child healthy? Is he or she up to standard weight, of good color, with plenty of rich, red blood to nourish the growing tissues?

For children who are thin, pale, anaemic, under weight, nervous, restless, sleepless, Dr. Chase's Nerve Food is the greatest benefit imaginable.

Being mild and gentle in action, and yet wonderfully potent as a restorative, it soon makes the blood rich and builds up the feeble nerves.

50 cents a box, \$4 for \$25.00, all dealers, or Remondos, Bates & Co., Ltd., Toronto.

### Unskilled Workers Are Well Paid

#### Sugar Plantation Workers in Honolulu Get Big Bonus

With sugar selling at 15.50 cents a pound, the monthly bonus rate which is being paid to sugar plantation laborers in Hawaii amounts to 345 percent of the wage rate, or a daily wage rate of \$3.42 for the lowest paid unskilled laborer. In other words, the laborer who receives a basic wage of \$20 a month is now being paid \$69 a month, the \$21 man is being paid \$79.34, and the \$24 man is being paid \$84. If sugar sells at 20 cents, the base paid unskilled laborer will receive \$71 in wages and bonus. Under the Hawaiian plan, the laborer is paid his wages and 75 percent of his bonus each month, the remaining 25 percent of the bonus being retained for him until the end of the bonus year.

#### Catarrh Cannot be Cured by LOCAL APPLICATIONS

as they do not reach the seat of the disease. Catarrh is a disease of great influence and constitutional conditions. HALL'S CATARRH MEDICINE will cure catarrh. HALL'S CATARRH MEDICINE is composed of some of the best known and most valuable parts of some of the best blood purifiers. The perfect results in cases of CATARRH MEDICINE are produced such wonderful results in catarrhal conditions. Druggists' Testimonials free. F. J. Cheney & Co., Provo, Toledo, O.

#### A Link With the Past

#### Old-timer at Edmonton Recalls Stirring Life of Early Days

To be seized and dragged from your horse by a party of Indians on the warpath; be tied to the stump of a tree and have brush piled about your feet, amid the jeers of the painted savages, and just as the brush was fired, to be rescued by your compatriots who had heard your screams. Did it ever happen to you, even in your dreams? Yet this is only one of the experiences that are milestones in the history of one of Edmonton's oldest citizens, Tlesphore Alexander Blair. Born 29 years ago on the banks of the St. Lawrence, "Daddy, Blair," as he is known, is spending the evening of his eventful life in the Alberta capital, living again in his tales of the past his adventures in the days when the west was "West," when as frontier mail-carrier, scout, hunter and trapper, he travelled the prairie and the northland from B. C. to Manitoba, and from the Yukon to the Dakotas. Probably no living man has made a longer mileage in the west, or all over the world, than this French-Canadian old-timer, now janitor of a "mission" in Edmonton.

It is estimated that there are at least twenty million acres of arable land lying within twenty miles of existing railways, exclusive of those held by the government, the Hudson Bay Company and the railways, the Western Canada Colonization Association, having behind it the whole business confidence of the three western provinces, and many business and financial leaders in eastern Canada is endeavoring to conduct a work which the government cannot do, and its motives are regarded as so worthy that the utmost co-operation is being extended by all those who have thus far been approached.

The object is not to buy or sell these lands, but to advise prospective settlers of their true value. Such lands are now privately held, and the heavy unearned increments taxes imposed by the western provinces on vacant land disposes owners to sell at a reasonable price. Further than that, the general interests and well-being of the new settler will become the care of the organization until he is on his feet.

The object is not to buy or sell these lands, but to advise prospective

### Returned Soldiers Flock to the Land

#### Large Numbers Are Making Their Homes in the Prairies Provinces

During the past eighteen months, large numbers of returned soldiers have availed themselves of the assistance given by the Canadian government and a large percentage have shown their appreciation of the opportunities which the west offers by making their homes in one of the prairie provinces.

The following figures will give an idea of the material help given to soldiers who have settled in Saskatchewan as compared with the total expenditure for that purpose throughout the whole Dominion. On the 10th of April the Soldier Settlement Board had approved loans amounting to \$12,533,111 for settlers in Saskatchewan out of a total of \$59,894,115 for the whole Dominion, the number of loans being 3,162 out of 15,540.

There are in Saskatchewan 2,869 established settlers out of 15,497 for the Dominion and 9,266 men qualified as settlers out of a total for the Dominion of 37,000. Saskatchewan also has 89 men in training out of a total of 617.

Out of \$60,000,000 in loans approved, \$32,704,744 is for purchase of land, \$18,904,444 for the removal of encumbrances, \$6,569,458 for permanent improvements and \$1,768,969 for stock and equipments.

A return issued by the board shows that soldier grant entries have been made by 6,625 returned soldiers on free land in the western provinces.

#### Land or Settlement

#### Millions of Acres of Arable Land in The West Lying Idle

To foster co-operation and unity between east and west in Canada, to people 20,000,000 acres of vacant lands and thereby secure a vastly increased market for agriculture, to enlarge the domestic market and reduce the Dominion's war debt—these are among the notable purposes of the Western Canada Colonization Association. The promotion of desirable immigration is the solution proposed, and for this purpose a fund of \$1,500,000 will be required.

It is estimated that there are at least twenty million acres of arable land lying within twenty miles of existing railways, exclusive of those held by the government, the Hudson Bay Company and the railways, the Western Canada Colonization Association, having behind it the whole business confidence of the three western provinces, and many business and financial leaders in eastern Canada is endeavoring to conduct a work which the government cannot do, and its motives are regarded as so worthy that the utmost co-operation is being extended by all those who have thus far been approached.

The object is not to buy or sell these lands, but to advise prospective

#### Preserving Spider Webs

Naturalists employ an ingenious method in order to preserve the web of the spider. The webs are first sprayed with a thin solution of artist's lacquer and then, if of the ordinary geometric form, they are pressed carefully against a glass plate, the supporting threads of the web being severed. After the shellac solution has dried, the plates carrying the webs are stored in a cabinet for later use in scientific work.

"Got a hacking cough and a headache?"

"Well, I've a little wood you could catch and it might cure your head."

"Much obliged, mam; but my 'ead-ache ain't of the splittin' variety."

The Canadian government is building 60 ships with a deadweight tonnage of 325,000.

—Correspondent.

### Huge Irrigation Projects

#### More Land is Brought Under Irrigation in Alberta

Another large area of land in southern Alberta has been brought under irrigation during the last few days when water was turned into the main ditch of the Canada Land and Irrigation company, east of the Little Bow Reservoir, for irrigating what is known as the Vauxhall district, where 5,000 acres of land purchased by settlers from the United States, will be put into crop this year. The water will be ready for use on the farms.

Water was turned into the main ditch from the Bow river intake, 40 miles east of Calgary, a year ago last fall, and since then the huge reservoir in the Snake Valley, is nine miles long and holds enough water to run the entire project for a year, has been filled. Some weeks ago, water was turned from this reservoir into the main ditch to the east, and the reservoir at Little Bow, which holds enough for a month's operations, was filled. Now the water has been turned out into the ditches from this reservoir.

The turning of the water into the ditches marks the successful culmination of an engineering project which has been in course of development for a number of years. It is ten years or more since the project was first undertaken, and since then it has been through various organizations and changes, until it culminated in the amalgamation of three distinct companies into the Canada Land and Irrigation company. The main ditch of the project is 175 miles long, and from this it is ultimately planned to irrigate 220,000 acres of land.

Mrs. Tuntwist.—Yes, he's got a different lodge for every night in the week.

#### NEURALGIA AND SCATICA

#### Caused by Starved Nerves Due To Weak, Watery Blood

People generally think of neuralgia as a pain in the head or neck or of the body. They may not know the name of the disease.

Different names are given to it when it affects certain nerves. Thus neuralgia of the Sciatic nerve is the pain and the nature of the disease is the same. The cause is the same and the remedy, to be effective, must be the same. This is the case with neuralgia of the sciatic nerve, or whether it affects the face and head, or whether it affects the eyes, nose, mouth, etc.

When you build up the thin blood with Dr. Williams Pink Pills, you are attacking neuralgia, sciatica and kindred diseases. Instead of taking a dose of these pills in cases of this kind we give the statement of Mrs. Thomas McGuire, North Middle Ont., who says: "I have a severe sciatic sufferer, a señorita, who, while she attacked the sciatic nerve in the left leg. At times the pain was most excruciating and as a result of the trouble there was a distinct narrowing of the leg. I could not stand on the affected leg, and if I attempted to walk to the fields I would have to sit down every little while to ease the agony. I felt it was under control, but it was not until I was able to improve shown, that I was getting very despondent, as the trouble was affecting my general health. Finally I found advice and try Dr. Williams Pink Pills, easily afford, and you will be among those who rejoice in regained health. These pills are sold by all dealers in medicine, or may be had by mail at 25 cents a box. Dr. Williams Medicine Co., Brockville, Ont.

A Perfect Antidote

Two rich girls have been arrested in New York stores during the past week on the charge of shop-lifting. In each case their lawyers claim they were the victims of aphasia. It seems they walked into the stores, looked around and suddenly the world became blank. They did not come back to their normal sense until detectives tapped them on the shoulder and said they were under arrest. It seems a good detective is an absolutely perfect antidote for aphasia—New York

Correspondent.

Victories in Russia Enable Them To Consider Peace Negotiations

Victories won by the Polish armies in Russia have placed Poland in such a position that within a short time it will be able to resume peace negotiations with the Bolsheviks, the Polish Legation was informed by its government.

"The Polish government," the cable message stated, "has given proof of its peaceful intentions in notes and official communications. The nearer in which Poland has tried the Russian question proves the complete absence of any imperialistic aspirations or intentions of conquest. The victories of our army have placed us in a position that within a short time we will be able to reconsider peace, leaving to the Soviet government the privilege of choosing the place for the negotiations from among the places proposed by Poland and which will answer the purpose for which intended."

#### Good Prospects in Irrigation Block

#### Swedish Colony on Bow Slope Are Prospering

A few miles south of Brooks, in the eastern section of the Canadian Pacific Railway's Irrigation project in southern Alberta, a very productive district has sprung up during the last two or three years. This district lies to the north of the Bow River, and has been found especially suited to irrigation.

In one of the best parts of the Bow Slope, which was established in 1918 and which now has a population of about 300 people and an acre close to 8,500 acres under crop. In 1918 the acreage under crop was 600, in 1919 2,200 acres were cropped, and this year an authoritative source states that 8,362 acres of land has been seeded.

The Bow Slope produced heavy crops last year and the settlers are looking for heavy production in 1920, as conditions are every way a great deal more favorable. About 4,000 acres of the total area in the block is being sown to flax, it having proved a splendid crop, especially on new broken land. Last year as high as 23 bushels to the acre was raised on Bow Slope farms. As the land is getting in better shape, alfalfa is being planted, and already about 200 acres are under that seed, made up of small plots on various farms.

Throughout the whole irrigation block, moisture conditions are excellent, and a great deal of breaking is being done. Many farmers have been working night and day, both to get in all the wheat possible and to prepare new land for crop. On the farms of Mr. Sutherland work has been done in two shifts, and wheat seeding is now completed with two thousand acres in the ground.

Notwithstanding there is sufficient moisture everywhere for rapid germination, preparations for irrigating are being made and every possible minute is being taken advantage of to get the ditches in shape and ready for the water which is expected to be turned on within the next week, or at the very latest, by the first of June.

#### Poland's Improved Position

#### Victories in Russia Enable Them To Consider Peace Negotiations

Evidently a new departure has been adopted by the department of education. Formerly, in connection with departmental examinations, it was customary for the department to make appointment of supervisors, which usually meant an interchange of principals. Now the school boards are asked to make the appointments, and it is optional with them as to whether or not they allow the principal of the school to supervise the examination of his district's pupils.

Reciprocity is being developed in a very harmonious fashion by a local young couple. One takes the other to a picture show, and the other takes the one to a prayer meeting. Well, if it does not do the one any good, it can't do him any harm, anyway.

### Advertising The Dominion

Next year the regular census of Canada will be made in accordance with the provision in the British North America Act which stipulates that it shall take place under the direction of the Dominion Government every ten years.

In advance of this, the Department of Trade and Commerce at Ottawa has issued an estimate of the population of the Dominion showing that the number of inhabitants of this mighty Dominion will considerably short of nine million, or about one sixth of that of our neighbor, the United States, who boasts a population of over one hundred and twelve million.

This state of affairs is a very serious thing for the Dominion, as the stagnation of a country's population inevitably means that the country laboring under such disability is heading towards economic disaster.

Canada is a country of vast agricultural and mineral wealth, but the exploitation of her resources has been neglected, principally on account of the directed propaganda disseminated with a view of giving immigrants, manufacturers, capitalists and industrial sound, intelligent and comprehensive information in regard to the opportunities which abound.

In advertising the multitudinous vital facts relative to the subject under notice, no better aid could be enlisted than that of the moving picture film, allowing as it does of the graphic presentation of every phase in such manner as could never be attained by the use of cold type.

Some time ago the Dominion Government directed a moving picture bureau which had pictures taken of many of Canada's natural industries for exhibition in Britain and other sources of immigration.

The Federal Government also established a bureau which procured many fine films of an industrial and scenic character, but so far there has been no movement to compel the theatre interests to exhibit the films, which is of course the essential part of the whole business.

The British Columbia Government, however, have moved in the right direction by introducing the Legislature a measure requiring all moving picture theatres to exhibit for fifteen minutes each performance films provided by the Provincial Bureau, which will be of an educational character illustrating the natural resources and economic and industrial problems of British Columbia, and also deal with general Canadian events of interest.

The measure now before the British Columbia Legislature is a very wise and commendable step on the part of the Government and sets an example which the other provinces could very profitably afford to follow.

As a rule the attraction of this class of picture has induced theatre managers to voluntarily present them interspersed between other films, but, as previously pointed out, no one is compelled to exhibit them, consequently the appeal is lost to thousands to whom the world conveys helpful knowledge and ideas.

Provincial, Dominion and municipal governments are not making the advertising use of their films which they could and ought to do, as besides being attractive the use of the film must be effective, but the British Columbia government has pointed the way, and it is to be hoped that before long the rest of the provinces will follow suit.

In advertising the Dominion by film, the Ford Motor Company of Canada, located in the pioneer city of Lethbridge, has maintained a moving picture department from whence a very superior class of picture, depicting the scenic and industrial life of Canada, is distributed throughout the length and breadth of the Dominion, the circulation embracing territory as remote as the town of Dawson in the Yukon. Besides the home circulation the films are shown in India, Australia, Africa, New Zealand, Java, Newfoundland, and other parts of the British Empire, thus getting what is perhaps the largest distribution of any film of the nature extant.

At the present time the Company has two motion picture photographers traveling from coast to coast of the Dominion securing topical material for reproduction.

An Italian, being informed of the luxury tax, remarked: "To hell, if you want more tax, take my wife."

The award of the fair wage board of Winnipeg of 87¢ cents an hour for painters was upheld by the Manitoba joint council of industry.

### Things We Need

(H. Addison Bruce in Ottawa Journal)  
There are a great many things we need in these troublous times—and we need them especially.

We need leaders who will talk less and do more. We need followers who will think, not merely cheer.

We need workers willing to work, and we need food, fit homes, fit clothing for workers.

Morals, above all, we marvel at labor unrest and clamor. Wonderfully simple is this discontent spring.

The bursting warehouses of the professors, the slim bodies of multitudes of the producers, furnish, at least in part, the answer.

Also the suggestion that one of our greatest needs is a better human mitigation.

We pride ourselves on our charity. We phone some on our generosity. Yet all the while we permit men and women and little children to live and die by the thousands in tenement and hills.

Absorbed in our private affairs, give the unfortunate scarce a passing thought unless they burst forth in "socialistic agitation." For our own sakes as well as theirs we need to better ourselves in this interest.

We need to realize that they can hope and despair, love and hate, rejoice and suffer, keep us as we are. We need to recognize, also, that we are not the only human beings than they are, despite their own grime and squalor.

And we need to remember that it is not only inhuman to ignore their worthiness, but that by so doing we may be risking a social conflagration, the beginning of which are plainly in evidence today.

We need, accordingly, to ask some pretty sharp questions about our industrial organization, our governmental efficiency, even about our much-vaunted educational system.

Are we really educating all the children of the people? Is our industrial making of the highest quality and personal success and happiness among the masses? Or is it benefiting the comparatively few?

Educational reform is, in fact, one of our present day needs. And reform must extend to home education no less than school education.

Too many people are being reared to be wasters, not makers; spenders, not savers.

Too many are unwittingly trained to shallow, callous, selfish modes of thought.

In too many—children of the wealthy as of the poor—the seeds of class antagonism and class hatreds are being sown.

These are a few—a very few—of the things we need. Unless we honestly endeavor to obtain them, greater and always greater evils will beset us, to the increasing misery of all and the final collapse of what we call our civilization.

John A. Vincent, the man who started the world famous Chautauquas assembly, is dead—back in 1910, Bishop Vincent realized that there was a great need amongst the Sunday school teachers of his church—the Methodist—for increased knowledge and culture in order to secure the best results in Sunday school work, and with this object in view he established a two weeks' summer course, held in the open.

A good story is told on a local humorist who lost fall went out on a day's hunt, but failed to turn up for several days owing to the deteriorating qualities of Crows' Nest Pass "water." He dared not go home empty handed, so stole a bird from a meat market. This bird he presented to his wife, and after responding with the usual congratulations she thoughtfully said: "Do you know, Mike, I was a good thing you shot that duck when you did; it wouldn't have kept another day!"

Business men who advertise are at least enterprising. They spend money to let you know that they want your trade, and when a business man says that he wants your trade he will try to satisfy those who trade with him.

A friend of ours in Lethbridge pinned a stamp to a letter addressed to us the other day to illustrate how very dry it is in that city. Here in the Crows' Nest Pass one doesn't even have to lick a stamp, but hold it up in the atmosphere for two seconds and it will stick.

The Imperial Oil Co. will spend two million dollars for oil exploration in Alberta this year. One well will be drilled south of Pincher Creek and one each at Fort Norman and Great Slave Lake.

### The Pass 18 Years Ago

(From the Frank Sentinel)

March 28, 1902—W. H. Atkins has in contemplation the establishment of a hotel at Cowley.

The legislature is in session at Regina, but the prevailing wind still comes from the west.

The Frank and Hairmore Carpenters' Union will be inaugurated on Wednesday night next.

The Sanatorium hotel will change hands on April 1st, a year's lease having been taken by A. McLeod and J. Boyce.

Harry Howard commenced the extension of the Cosmopolitan hotel, which he intends to make an up-to-date house.

Dealers are being called for the running of a tunnel on the Fishburn property at Blairmore.

The first robin of spring was here on Wednesday.

The injunction served on Felix Montebello and Malcolm McKenzie, in the Blairmore dispute, will come up on argument in the Exchequer Court at Ottawa on the 14th.

A. V. Lang will commence doing business here this week in the Pratt block.

The successful candidates in the recent examinations of the assessment board of the Royal Academy of Music and Royal College of Music, held on June 3rd (today at Belgrave), were as follows: Lower Division—Irene May; Elementary Division—Florence Wood and Sam Willis; Primary—Florence Warner, Irene Chappell, Mabel McDonald, Mary Agnes McNeill, Lily Crowder.

The Baptist Convention of Alberta will be held at Calgary on June 15th to 19th. Rev. Dr. J. M. Campbell, late of Vancouver, now of New York, has just returned from a trip around the world visiting missions in Japan, Korea, China and India. He will give several addresses. Dr. Eric of Philadelphia, a Sunday school expert, will be one of the chief speakers. This will be one of the most important conventions ever held by Baptists in Alberta and a very large attendance of Baptists from all parts of the province is expected.

W. F. Graham, manager of the Lacombe branch of the Union bank, was arrested last week, charged with the theft of funds from the bank. The embezzlement may amount to between \$25,000 and \$30,000. Mr. Graham has been in the bank's employ for twenty years, thirteen years at Lacombe.

The said indebtedness shall be paid during a period of fifteen years from the date on which this By-Law takes effect and shall bear interest at a rate not exceeding Seven per cent. per annum and shall be repayable in such manner that each instalment of principal and interest shall be equal in each year of the said fifteen years.

That the said sum of \$6500.00 shall be raised by way of loan upon the credit of the Municipality, the Mayor and Council, and the same shall be loaned to the said corporation for the purpose of constructing Concrete Sidewalks and Crossings as aforesaid.

(2) The said sum is hereby appropriated for the purpose of constructing Concrete Sidewalks and Crossings as aforesaid.

(3) The said indebtedness shall be paid during a period of fifteen years from the date on which this By-Law takes effect and shall bear interest at a rate not exceeding Seven per cent. per annum and shall be repayable in such manner that each instalment of principal and interest shall be equal in each year of the said fifteen years.

(4) That the said sum of \$6500.00 shall be raised by way of loan upon the credit of the Municipality, the Mayor and Council, and the same shall be loaned to the said corporation for the purpose of constructing Concrete Sidewalks and Crossings as aforesaid.

The votes of the electors will be taken on the tenth day of June, 1920, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the Town Office, Blairmore.

Dated at Blairmore, in the Province of Alberta, this 13th day of May, 1920.

(Signed)

the principal and interest payable annually.

(5) That the said debentures shall be sealed with the Corporation Seal and signed by the Mayor and countersigned by the Secretary-Treasurer of the Town of Blairmore.

(6) That the said debentures and coupons shall be payable at the office of the Secretary-Treasurer of the Town of Blairmore.

(7) During the currency of the said debentures there shall be raised annually by a special rate on all taxable property in the Municipality a sum sufficient to meet the annual instalment of principal and interest of the proportion of the said indebtedness assumed by the Town and which amounts in the aggregate to the sum of \$3250.00, also by a frontage tax or rate a sum sufficient to meet the annual instalment of principal and interest of the proportion due from the property owners affected in blocks Three Four, Five and Six on Plan 3319-1, fronting on Victoria Street, Blairmore, and which amounts in the aggregate to \$3250.00, the said rate or tax to be raised at the same time and in the same manner as the ordinary general municipal taxes annually.

(8) That this By-Law shall take effect on the 2nd day of July, 1920.

(9) The votes of the electors duly qualified to vote on this By-Law shall be taken on the tenth day of June, 1920, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon, at the office of the Secretary-Treasurer of the Town of Blairmore.

(10) That Frank Wright shall be the Returning Officer for the said poll, and the said Returning Officer shall at his discretion call the election on the afternoon of the tenth day of June, 1920, proceed to sum and declare the number of voters for and against the By-Law.

Provided in case assembled in the Council Chamber of the Town of Blairmore, in the Province of Alberta, this 13th day of May, 1920.

(Signed)

JAMES G. KWAN,

Mayor.

FRANK WRIGHT

Secretary-Treasurer.

The above is a true copy of the proposed By-Law, which will be taken into consideration by the Council after being voted on by the electors on the tenth day of June, 1920. The votes of the electors will be taken thereon on the tenth day of June, 1920, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the Town Office, Blairmore.

Dated at Blairmore, in the Province of Alberta, this 13th day of May, 1920.

FRANK WRIGHT

Secretary-Treasurer.

Every inhabitant of the city of Lethbridge, of 21 years or over, who has resided in the city for two months or over and has not been assessed on the assessment roll of the city, has to pay a poll tax of \$10.

## Taxation and the Budget

The government at Ottawa has at last decided that the time has come to call a halt to further large borrowings and consequent increases in the national debt; that the current revenue of the country must be augmented sufficiently to cover all ordinary and capital expenditures, including interest on the public debt, pensions, railway deficits, etc.; that, in fact, a beginning must be made in reducing the national debt. As was pointed out in this column on other occasions, the results of taxation brought about in two ways, or rather by a combination of both—revenue to be increased to cover expenditures, to be decreased until they are balanced by revenue; or, and this is probably the only safe way, revenues to be increased and expenditures decreased until they balance.

The government has decided to curtail expenditures for the time being by postponing the carrying out of certain public works. These, however, are only deferred. But the government does not appear to have gone very far in the direction of enforcing a more rigid economy in the cost of administration. There are still too many overlapping departments and branches of the public service; still too many civil servants drawing salaries for the amount of work to be done; still an almost criminal waste of money in many ways. There is an absence of courage at Ottawa in tackling this great problem of governmental expenditure.

On the other hand, the recent budget does not evince some degree of courage on the part of the new finance minister in the raising of a larger revenue by taxation. No finance minister and no government likes to impose new and heavier taxation, but it must be done if Canada is to honorably meet the obligations which the war has thrust upon it. The people of Canada realize this, and they are ready to pay, just as they were ready to fight and sacrifice that the war might be won. All they ask is that the taxation be levied in a fair and equitable manner, based on the principle that those best able to pay shall be made to do so, and that those enjoying less in the way of material wealth shall be let off as lightly as possible.

While there is criticism of some details of the new taxes, and a very general belief that some articles, which, under the prevailing conditions and prices, are actual necessities, have been classified as luxuries, there is a very general approval of the idea of imposing a few items of increased stamp duties, of an increase in the tax on incomes in excess of \$5,000. These are steps in the right direction.

From the standpoint of the agricultural producer and the great mass of the consuming public, however, there is real ground for criticism that some

action has not been taken to encourage the work of primary production throughout the Dominion by reducing the tariff burden imposed on instruments of production. Increased production would so greatly add to the wealth of the country that the increased purchasing power of the people would more than offset any decrease in customs revenue resulting from lower duties on the implements imported to promote that large production.

The presentation of the budget again brings to the fore the necessity of some amendment to the rules of procedure in the house of commons whereby it will be possible to offer more than one amendment to the budget resolutions. At present only one amendment is allowed, with the result that any member, or group of members, who do not favor the main motion, that is the budget itself, and who do not consider that any amendment offered goes far enough, or too far, in protecting their interests, are precluded from offering an amendment to the budget and setting forth their views on the question. One amendment and one only is allowed, with the result that no opportunity is afforded of presenting a third alternative policy.

This rule last year operated to prevent the Farmers' group from submitting their views to Parliament and the country, and compelling the members at Ottawa to record their votes thereon and make their position clear before the electorate. Unless a change in the rules is effected, the same thing will occur this year. In almost all deliberative bodies an amendment to an amendment is accepted. It should be in the house of commons on the budget. Everybody will recognize the necessity for some limitation if the transaction of public business is not to be unduly delayed, but an amendment to an amendment is a safe limitation. Limitation to a single amendment only is too strict, and operates to the disadvantage of the country and prevents reasonable and legitimate discussion and presentation of views on the most important of all public questions, namely, the imposition of taxation on the people. It is time the rules were amended in respect to amendments to the budget.

Minard's Liniment Lumberman's Friend.

### Too Few Producers

In the United States now are too many people buying and selling the things—many of them rebuying and reselling the same things—and too few workers producing things. Principally to that fact the country is indebted for the present extravagant cost of living. Is it not time to begin the progress of selection of immigration that will give the country good producers of things rather than mere sellers of things?—Chicago News.

### WHEN BABY IS SICK

When the baby is sick—it is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for babies, as they are easily soluble but thoroughly laxative which regulates the bowels, sweetens the stomach, constipation and indigestion, break up colds and simple fevers, and remove the grippe. Comes in Mrs. Philippe Payen's St. Flavien, Quebec, writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby. I have recommended them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Little Bobbie.—What is laughter, Uncle Jack?

"There's a Reason"

## For Government Merchant Marine

### Will Select Boys From the Canadian Navy League

The nucleus of a Canadian personnel for the Canadian merchant marine is provided for in an agreement which has just been concluded between the Canadian Government Merchant Marine, Limited, and the Navy League of Canada and Montreal will provide the first recruits for the national shipping.

R. B. Teakle, general manager of the Canadian Government Merchant Marine, states that boys will be taken from the navy league, and two of the most promising candidates will be selected for each ship to be obtained as deck officers. Instead of payment of a premium, each boy will, under the terms of the agreement, earn \$100 the first year; \$200 the second; \$300 the third, and \$500 in the fourth; plus his board.

### Found Relief When Doctors Had Failed

#### MANITOBA WOMAN PRAISES DODD'S KIDNEY PILLS

Mrs. Murmilo Says to All Who Suffer From Bladder Troubles: "Try a Box of Dodd's Kidney Pills."

Brookdale, Man., May 31st.—(Special.) Strong talk here praises of Dodd's Kidney Pills is Mrs. Mary Murmilo, a well known and esteemed resident of this place. And Mrs. Murmilo gives her endorsement.

"Two years ago I suffered from bladder trouble," she says. "I tried all kinds of medicines and two doctors and used eight boxes of them and found them useless. Then I gave every person suffering from bladder trouble I saw a box of Dodd's Kidney Pills."

Dodd's Kidney Pills act directly on the kidneys. By putting them in condition to do their full work they relieve bladder troubles and send pure blood and healthy nourishment to the parts of the body.

Ask your neighbors if Dodd's Kidney Pills do not relieve kidney ills and those diseases that spring from sick kidneys.

### Stop Entry of Imbeciles Into Canada

#### Staff of the Medical Immigration Inspectors is Doubled

The recent appointment of a number of extra medical inspectors in connection with immigration into Canada is understood to be consequent upon the increasing numbers of public health bodies throughout Canada that many imbeciles were being admitted to Canada without proper inspection. The staff of medical immigration inspectors has been more than doubled and every precaution is now being taken to prevent incurable imbeciles from entering the country and becoming a public charge.

Fifty percent of the patients in an asylum in British Columbia are said to be recent immigrants. Four of them are said to have been admitted at Atlantic ports, after they were refused admittance to the United States. In answer to inquiries on the point, the Dominion health department stated that there was no lack of precaution at the present time and modern scientific tests were being made by competent alienists at ports of entry.

#### Wireless Experiments

##### Conducted by French Sloop Cruising in Pacific

Valuable experiments in wireless telegraphy are being conducted by the French sloop Aldebaran, which has been cruising in the Pacific near the Chatham and Bounty Islands. Lieutenant Guierc, wireless expert, will probably submit the result of his experiments to the international wireless conference in Washington shortly. He states that the wireless "reception" in New Zealand from the French instruments is of special interest to continental experts, as New Zealand is practically the antipode of France. It is claimed that the Aldebaran is carrying out for the first time a truly comprehensive system of measuring the strength of "receptions" although an American had pioneered the way in this respect.

#### Saskatchewan Highways Program

Notice is given in the Canadian Gazette that a program on highways to be constructed or improved in Saskatchewan has been filed with the department of railways and canals. A copy may be seen in the office of the minister of highways at Regina.

A shanty six feet long was recently caught by a girl fishing with an ordinary hook and line in Bude Bay, Cornwall.

Experience is a dead loss if you don't sell it for more than it cost you.

## New Principal for Agricultural College

### High Post is Given to Prof. Bracken of Saskatoon University

John Bracken, professor of field husbandry at the University of Saskatchewan, Saskatoon, for the past 10 years, has been appointed principal of Manitoba Agricultural College to succeed Dr. J. B. Reynolds, who resigned his position to become principal of the Ontario Agricultural College at Guelph.

Professor Bracken, during his term at the University of Saskatchewan, has been one of the outstanding figures in the province among those who worked for the advancement of agriculture. As superintendent of farms and farmers institutes, he has done notable work and his publications, which include a number of circulars on various phases of crop production in western Canada, have been eagerly sought by every farmer of note in the province.

### Sale of Wheat

#### Canadian Farmers Will Receive Over Three Million Dollars

It is understood that a settlement is being reached in the disagreement between the Greek Government and the Canadian government over the wheat prices. As a result, it is said, Canadian farmers will benefit to the extent of three and one quarter million dollars, or the difference of fifty cents a bushel between \$2.50 and \$3.

The increase in the amount which the Greek government has agreed to pay for something like 6,000,000 bushels of wheat was assured chiefly through the effort of the Canadian Wheat Board and the Canadian Trade Commission, which has its headquarters at Ottawa. Sir Charles Gordon, of Montreal, and Rhys D. Fairbank of Toronto are the commissioners.

The dispute is said to have arisen through a misunderstanding as to the exact interpretation of an agreement between the Greek plenipotentiaries and the Canadian trade mission which was headed by Lloyd Harris.

### MOTHER!

#### "California Syrup of Figs" Child's Best Laxative

Accept "California Syrup of Figs" look for it next California. The package then you are sure your child is having the best and most harmless laxative or physic for the little stomach aches and bowel trouble. Give it daily until the full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

### Egg Inspection in Canada

#### Maximum Allowance Is Twelve Eggs Per Case Below Grade

According to government statistics recently issued, during the latter half of the month of March 650,000 dozens of eggs, in other words, 45 carloads, were inspected under the Dominion's regulations. The carloads were pretty evenly distributed between the east and west. The demand for inspection is gaining in popularity as both buyers and sellers have seen the benefit of handling eggs according to grade and subject to inspection in inter-provincial trade.

Guernsey Cow Brings \$17,700. A record price of \$17,700 for a Guernsey cow was paid at a sale of cattle, held at Midlothian, Illinois, in connection with the annual meeting of the American Guernsey Cattle Club.

That man never lied who can repeat the ten commandments while removing a porous plaster from his anatomy.

A shark six feet long was recently caught by a girl fishing with an ordinary hook and line in Bude Bay, Cornwall.

Experience is a dead loss if you don't sell it for more than it cost you.

# G.W.V. President Thinks Time Ripe For General Election

Ottawa.—R. B. Maxwell, of Winnipeg, Dominion president of the G.W.V.A., who has been here investigating the political situation has issued the following message to the 776 branches of the association throughout the Dominion:

"From knowledge gained of political and economic aims in Canada on the part of the Great War Veterans Association to obtain equitable conscription legislation, I deem it my duty to urge upon you the necessity of an all general election. Parliament has confined inability to redeem former pledges, and restore to returning soldiers and dependents in a substantial measure those economic advantages which they would now enjoy but for war services."

"Parliament has shown reluctance to offset such failure by measures for the improvement of living conditions throughout the country, whereby returned men might more easily regain a secure foothold in the country."

"Parliament now requires that those who have seen war service shall be exempt from the major portion of the new acts."

"Parliament has denied to the electorate of Canada any opportunity since 1911 to assert their views upon domestic questions by means of the ballot. Parliament continues to issue statements, but is not supported by the vast majority of those who have the interests of the balance at heart, nor of our association."

## Back From Exile

**King Alexander of Greece Will Return to Throne**

Pairs.—King Alexander of Greece, who is now in Paris, will return to his capitol upon the conclusion of his visit here; it was announced at the Greek legation. This announcement sets at rest the published rumors that the king did not intend to return to Greece, but had decided to share the exile of his father, ex-King Constantine, and that he might be succeeded on the Greek throne by an English prince.

**Calgary Miners Present Demands**

Calgary.—U. M. W. of A. miners presented their demands for a thirteen percent increase over the present schedule to the operators. The increase will mean a total increase of 27 percent over the scale which was in effect last October.

## Bank of Saskatchewan

Ottawa.—In the senate, Senator Ross presented a petition for the incorporation of the Bank of Saskatchewan, with head office in Regina.

## Attack on Col. Amery

**Col. Amery Is Not A Trustworthy Representative**

London.—Truth, which is independent in general politics, but consistently supports free trade, says:

"Opposites of the West Indian conference at Ottawa, Col. Amery and Lord Milner are quietly pursuing the project of imperial preference which should be resisted by free traders. The West Indians are crown colonies under the thumb of Downing Street, and though delegates from their various administrations are attending the conference, it is doubtful as to how far they will present the interests and the opinions of the local trading community and the population in general. Arrangements which might be advantageous to Canada might easily be disadvantageous to the West Indies and the Mother country as well. Col. Amery is certainly not a trustworthy representative in this matter. He takes the view that anything which benefits the Dominions benefits us, which is matters of commerce and finance, is mere sensational nonsense."

## Sims Replies to Wilson

**U. S. Rear-Admiral Declares President's Plan Was Audacious**

And Certain to Fail

Washington.—While President Wilson's "bold and audacious policy" for the navy was sound, the specific operation he advocated to crush Germany was "impracticable for technical reasons," Rear-Admiral Sims told the Senate naval investigating committee.

"However," he concluded, "the aggressive policy advocated was, of course, not the correct course."

The sacrifice of half the combined British and American fleets would not have been too great a price to pay if it would have suppressed the submarine and ended the war, but the decision would have been unwise, as in the opinion of the responsible naval experts, it would certainly have failed.

## Crusade Crashes Through Bridge

Lethbridge.—One man was killed and another injured, though not seriously, in a wreck of Christie Brother's circus train which broke through an irrigation canal bridge on the Cardston sub-division of the Canadian Pacific Railway. The engine had passed over the bridge, but the heavily loaded baggage-car crashed through. The dead man and his injured comrade were both circus employees.

# Ambassador Geddes Is Received By U.S. President

Washington.—Sir Auckland Geddes, the new British ambassador, formally presented his credentials to President Wilson at the White House and exchanged with the executive assurance of good will and amity.

None of the diplomatic questions pending between Great Britain and the United States was touched on specifically in the addresses exchanged between the President and Sir Auckland. In addressing the president, Sir Auckland said: "His Majesty my king, has instructed me to deliver to you, my dear sir, to say that it is his desire that I represent you, sir, his assurance of the lively interest that promotes the welfare and prosperity of the United States of America.

"Immediately before I left his court of St. James, I had the honor of being received in audience by him, when he charged me particularly to express to you, sir, the vivid sense of pleasurable recollection with which he remembers your excellency's visit and that of Mrs. Wilson to him at Buckingham Palace.

"He has had deep emotion and regret of the loss of health from which you, sir, have unfortunately suffered. His pray that it may be wholly temporary and of short duration between them.

"It will be my unceasing effort ever to serve the people whom I have the honour to represent in the furtherance of their wish and hope."

## Villa Will Not Surrender

**De Facto Government Has Already Begun Organization Against The Outlaw**

El Paso, Texas.—Further efforts to persuade Francisco Villa to lay down his arms were futile, according to General Ignacio Freguez, commander of the Chihuahua Defensas Sociales, who telegraphed the Mexican consulate here that the de facto government can settle the Villa problem by force of arms.

The de facto government of Mexico has already begun its threatened organization against Villa. Many bands of troops have been sent into the mountains to hunt down Villa and his band of men.

## Stores of Sugar to be Sent Abroad

Halifax.—An interesting commentary upon the announcement that sugar is due for another advance is to be found in the fact that great quantities of sugar are being piled up here, presumably for exportation abroad. It is stated that several hundreds of thousands of bags of sugar are at present awaiting shipment at one pier and that the quantity is daily increasing. At another pier upwards of a quarter million bags of flour are awaiting shipment abroad.

## Mennonites May Leave Swift Current

### Receiving Offers for Land They Contemplate Vacating

Swift Current, Sask.—Jacob Friesen, head of the Mennonite colony south of Swift Current, left a few days ago for Mississauga to make the final arrangements in connection with removal of the Mennonites from this district to settle upon lands in the southern states. Upon the result of Mr. Friesen's negotiations rests the final decision concerning the migration of the Mennonites from Swift Current district, where they own 150,000 acres of the very best farmland. Before leaving, Mr. Friesen stated that no papers had yet been signed guaranteeing special privileges to his people in the United States if they migrate. If these special privileges were not forthcoming, arrangements for moving to Mississauga would be at an end and the colony would then reconsider a proposal to move to Brazil. In the meantime, the Mennonites are receiving offers from several quarters for the land they contemplate vacating. Following an offer from an American syndicate recently, efforts are now being made by representatives of French settlers in Maine and Quebec to obtain options on every possible colony farm. The price offered is \$40 an acre to include implements and improvements and the season's crop. Crop prospects are so favorable at present that many of the Mennonites will refuse to join in any exodus that may take place. The provincial government has arranged for the erection of several more schools in the settlement and will rigidly enforce the school attendance act.

## Do Not Need Passports

Ottawa.—U. S. Tourists visiting Canada do not require passports as a condition of entry into Canada from the United States or as a condition as to leaving Canada, was the announcement made from the department of the interior.

Canada welcomes bona fide tourists the statement says, and extends every possible courtesy to such travelers in entering and leaving the Dominion.

## Investigate Aviator's Death

Vancouver.—An enquiry has been obtained by the Dominion air board into the airplane crash of last Monday in which E. H. Beasley was killed, according to a message received by Major Claire McLaren, D.S.O. Col. Richard Bell Irving and Major Scott Williams have been appointed to assist Major McLaren in the investigation.

**Vegetables Drop in Chicago**

Chicago.—Prices of all vegetables dropped from five to thirty-five percent on the Chicago market in the last ten days, commission merchants said recently. Market experts said the decline in prices was due to increased receipts.

## Big Elevator Deal

Winnipeg.—One of the biggest deals in grain storage space ever consummated here is announced. The Leitch-McLean Elevator company has purchased 17 elevators from the Imperial Elevator company and one from Hallett and Carey.

W. N. U. 1318

## Kolchak Was Shot By Revolutionist

**Denied Trial, He Smoked Cigarette While Facing the Firing Squad**

Victoria.—Details of the killing of Admiral Kolchak, head of the allied government troops in Siberia, were told her by Captain Webb, provost marshal of the British Forces in Siberia, who has arrived here on the steamer Manila. Manilla came from Vladivostok. Through treachery, however, Kolchak was captured by revolutionaries and incarcerated with former Premier Repetyleff at Irkutsk. When placed in front of a firing squad, Repetyleff was shot down when he attempted to escape.

Kolchak, denied a trial and the privilege of seeing his wife, coolly smoked a cigarette and awaited the volley. The order to fire was disobeyed by the firing squad, whereupon a commanding stroke forward, pushed Kolchak's head back and sent him to death with a revolver.

## Oppose Extension Of Divorce Laws

### Anglican Bishop in Toronto States Case Against Proposed Legislation

Toronto.—Strong opposition to the relaxation of laws governing divorce was voiced by Bishop Sweeney in his charge at the opening of the 68th annual meeting of the Anglican synod of the diocese of Toronto. His lordship referred to proposed divorce legislation and declared that the church of England was opposed to divorce save for the cause allowed by her divine head.

The bishop quoted from legislation adopted by the church in 1905: "No clergyman within the jurisdiction of the Church of England in Canada shall solemnize a marriage between persons either of whom shall have been divorced from one who is living at the time." He concluded by saying: "We must oppose, by every legitimate means, any legislation which seeks to enlarge the causes for which divorce is to be granted."

## Murderers Escape

### Three Men Serving Life Sentence at Boston Scale Walls

Boston.—Herman Barney, who was sentenced to prison for life for the murder of Patrolman Charles Deninger, in this city in February, 1919, Harry Mansliter, serving a life sentence for the murder of Patrolman Joseph Riser, in this city a year ago, and Charles Ward, a negro, serving a 20-year sentence, escaped from the state prison in the Charleston district by scaling the walls. They were clad in prison garb.

## Increase Rolling Stock

Winnipeg.—This year the Canadian National Railway rolling stock will be increased by the building of 5,750 freight cars, 80 locomotives and 70 passenger coaches. The additions to the rolling stock contracted for in 1919 are now almost completed, it was learned. In 1919 new freight cars to the number of 1,549 were built, 50 locomotives and 240 passenger cars.

## To Include Women

Ottawa.—An act to incorporate the Army and Navy Veterans in Canada was amended by a committee of the commons, to provide for the inclusion of women's organizations.

## Railway and Tramway Strikes Which Had Been Threatened

Melbourne.—In Melbourne, the Prince of Wales has been well acclaimed. A fleet met the Renown, while airplanes circled over the harbor. Three thousand pigeons were released in the midst of the cheering crowds as the prince disembarked and drove through the thronged streets. The railway and tramway strikes which had been threatened by the unions did not develop.

**Low Water on Yukon**

Seattle, Wash.—Extremely low water is likely to prevent the opening of navigation on the Yukon river until about June 12, according to advice from the north. It is more than 23 years since the water was so low at this season.

## To Duplicate Cable

Vancouver.—The Pacific cable board is considering the duplication of its cable from Canada to the Antipodes, John Millwood, manager of the board, has announced.

"Your lunch will be fresh and tasty at dinner hour to-morrow. It is wrapped in Para-Sani."

## PARA-SANI WRAPPER

Heavy, waxed paper in House-hold Rolls, with handsome oak Roller-Box. Para-Sani is cheaper and more convenient than waxed paper in loose sheets and the paper is of better quality.

## Of Local and General Interest

Mrs. Malcolm McKenzie, of Macleod, was a visitor here on Friday last.

T. S. Dawson has been under the weather for the past couple of weeks.

W. F. Hargrove, principal of the public school at Cowley, was in town on Saturday.

Mrs. Wilson returned last week end from a visit with friends in Calgary and MacLeod.

Remember the big sports day to be held at Pincher Creek on July 1st—Dominion Day.

J. E. Gillis attended court sessions at Pincher Creek on Wednesday and continues on to Calgary tonight.

W. A. Brown and family were up from Burns yesterday. Mr. Brown is interested in the establishment of a gazuk farm in Blairmore.

A deer crossing the road near Elko the other day, barely escaped being run into by a car bound Blairmorewards. Last seen, he was shooting straight heaveyards.

Clerical employees of the Alberta government telephone system are to receive a bonus, the amount varying from \$100 to \$200, according to salary and other conditions.

On and after Tuesday last, automobiles of all persons convicted in Manitoba of speeding more than twenty-five miles an hour, will be impounded for a period of one week.

The ladies of the Union Church will serve tea at the Masonic Hall on tomorrow (Friday) afternoon, from 3 to 6 o'clock. Gentlemen are specially invited, and to bring their friends.

The Girl's Mission Band will hold their monthly meeting on Saturday, from half-past two to half-past three, at the Union church. Everybody welcome—Press Secretaries: Gwen McDonald and Eleanor Farmer.

In the police court last week, some fifteen parties appeared to answer the charge of having failed to place adhesive war revenue stamps on goods requiring same and sold by their stores. The informations were laid by Sergt. Lobb and Corporal Ferguson, of the R.C.M.P., who were acting on instructions from the department of inland revenue. Among those accused were two juveniles, one a nine-year-old son of Frank Graham, of Coleman; the other the fourteen-year-old daughter of Frank Celi, also of Coleman. Parents in both instances appeared to represent the children and pleaded guilty to the fact of their children having sold goods requiring stamp to the detectives, and fines of \$50 in each case were imposed. This in the mind of any fair-thinking person is an injustice. In the first place such children should not have been called to answer such a charge, and in any event before nine but a juvenile court. John Denell, operating a grocery store at Coleman, also pleaded guilty and paid the minimum fine of \$50. Several other cases against Colemanites were dismissed without costs. Stephen Humble and others, of Bellevue, had the misfortune to be subjected to the charge, but these were all dismissed. A. L. Blais and M. Dypolt, of Frank, were charged, and their cases dismissed. About seven Blairmoreites fell in the victim line, and after several sessions in which Solicitors Gillis and Putnam appeared jointly to defend the accused, all were dismissed save G. N. Elwin, of the Blairmore Pharmacy, who paid the fine. The cases were presided over by police magistrate Burrell, and evidence for the Crown was submitted by Messrs. Lobb and Ferguson.

M. Belecky paid a business visit to Calgary this week.

V. Petrone left here for California on Wednesday morning in search of health.

W. F. Hargrove, formerly with the Lethbridge Mercantile Co., has taken a position as drummer for the Western Canada Wholesale Co., Fernie, covering this territory in place of Jack Ingram, who has been transferred to the Cranbrook district.

At the regular evening service at the Union church on Sunday last, the Sacrament of Baptism was administered.

James Lotz has severed his connection with the F. M. Thompson Co. to take a position with a Fernie firm.

The marriage of Norman Macaulay, of Calgary, to Miss Beck, of Coleman, was solemnized at Coleman on Monday evening.

Owing to the train wreck near Magrath last week, the Christy Bros. trained animal circus did not appear at Blairmore on Friday, as scheduled.

The Paris branch of the Alberta Teachers' Alliance will hold their second grand dance at the opera house on the night of Friday, June 11th.

### Hillcrest Happenings

(By Felix)

Jake Whiller is busy these days with the new post office, which adjoins the bank. He has just finished re-flooring the G. W. V. A. clubroom.

Latest reports concerning G. C. Cruckshank, who isjourneying to the coast, states that he is greatly improved in health.

Mr. and Mrs. Sam Richards are receiving congratulations on the birth of a son. Sam laid off a day to celebrate the event.

Mrs. Robert Steinhouse left Sunday night on a visit to dear old Scotland.

The allotment holders are busy with King Spud. All one can see around that vicinity is shovels, rakes, etc. The water hose is not required yet. A good strong wire fence has been erected and there is some talk of a night watchman being put on to keep Ted Royle's horse away.

It is to be hoped that the propaganda for annual clean-up will spread to Hillcrest. Judging by the number of the cans around, anyone setting up a tinsmith's business would soon be on the road to a fortune.

The new bank when it opens, will be a great convenience, saving anyone with anything to draw out many a weary trip to Bellevue.

Professor Goun, the school principal, spent the week end at Burmis.

Dan Howcroft has purchased the house lately owned by Mrs. Charles Beaver.

The boys are getting into shape for the coming season. The new outfit has arrived from Calgary. The first match will be played at Hillcrest with Blairmore on June the 12th, when the new recruits will have an opportunity to show their worth. There is some talk of a few Old Country players coming out to Hillcrest.

Tony Cassagrande and his gang have been busy the past few days putting a Frank cottage together near the football ground.

The new train service inaugurated June the 1st will be quite a local boos.

A public meeting will be held in the near future to consider the advisability of building a new school in a more central part of the community.

Cat skins are selling in New York at \$1.50 per.

The Hudson Bay Company will store a store in Winnipeg, to cost approximately \$5,000,000.

There seems to be less popular interest in cheaper cuts of meat than in lower cuts of game.

The Methodist Church of Canada proposes a minimum salary for ministers of not less than \$1500.

The Alberta Masonic Grand Lodge will convene at Banff on Wednesday next, June the 9th.

The chicken season will open at Winsterton and Grows' Nest Lakes as soon as the weather warms up.

The Ford Motor Co. of Canada, will erect a five-story factory in London, Ontario, that will employ 1500 men.

Mrs. James J. Gillespie, mother of Dr. J. J. and J. H. Gillespie, of Pincher Creek, died at her home in Morrisburg, Ontario, on May the 23rd.

The sisters of Ambrose J. Small, the millionaire Toronto theatre manager, who disappeared in December last, have made a claim on his estate.

Dr. Douglas Redman, of the London, England, Royal Academy of Music, was in Bellevue this week, conducting examination of Miss Williams' pupils.

At the end of the trial held in Nelson last week, Joe Jackson and William Cameron, of Cranbrook, two of the best known conductors of the Crow were each fined \$100 for "knocking down" fares.

### Cowley Happenings

W. F. Hargrove was a Blairmore visitor on Saturday.

George Baker has returned from the Old Country.

Edith McEwen is temporary telephone operator now.

Dr. and Mrs. Donald are moving into the manse this week.

Joe Wilson has returned, after spending the winter at Laskin, B.C.

Several parties are moving their cattle to the forest reserves for pasture.

Mrs. Bunning, of Calgary, is visiting with her parents, Dr. and Mrs. Donald.

Bradford Tustia is taking an enforced vacation, suffering from severe earache.

Winifred Porter had the misfortune to sprain her wrist and is confined to her home.

William Mackay has gone back to his home at Vernon, after spending a few weeks here.

Mrs. John Kemmis and her mother, Mrs. Elton, left on Friday on a holiday visit to Sylvan Lake.

Edna Bird, of the local telephone exchange, is enjoying a month's holidays with relatives in Montana.

Young chicks will not be so numerously hatched this season, on account of grain being high priced and scarce.

Sprained ankles seem to be the victim in this case. It happens

and lot, with cellar; house well finished and fenced in. Garden at front and back. Lot 8 in Block 7, House No. 15. A snap for cash. Apply to Pete Pistor, Blairmore.

D. O. and Mrs. Little left here for their trip east the early part of the week, going from here to Gordson, thence south through Montana. They expect to be away a couple of months.

ed by jumping from a snow fence while playing. He will be forced to miss school for a while.

The main road between Cowley and Lundbreck has been freshly graded, making travelling conditions much more pleasant.

Mr. Brockwell and family arrived here from Calgary on Monday morning, on a lengthy visit with her parents, Dr. and Mrs. Donald.

The dance given in Tuskin's hall on Saturday night by Mrs. B. O. Morrow and Mrs. Ed. Grove, in aid of Harvey Robinson, was well attended.

H. D. Gerry and family have returned. Mrs. Gerry and little son spent over a year in Scotland and were joined by Mr. Gerry at Montreal.

Arthur Freeman and family have returned from England, after spending several months there. Miss Hilda Freeman came over with them.

Quite a number of pupils will be writing here for examinations in both public and high school work. Some from outlying districts will write here.

Apparently the hens are not in sympathy with the I. W. W. Mrs. Latte had one that recently brought off a lovely brood of chicks after setting for twenty-nine days.

A government survey party are making a preliminary irrigation survey here, to decide the possibilities of irrigation in this district. They are beginning up the North Fork river.

Tennis playing has begun here. The school courts are in good order, a lot of work having been done recently to put them in shape. Looks like summer to set the rackets and tennis shoes once more.

Mrs. William Lightfoot and son Sinius are visitors from Calgary to these parts. They are driving back in their car, which had been here all winter. Mr. Lightfoot has gone east to visit his old home.

Wireworms have done considerable damage to fall wheat. The mild cloudy weather we are having at present will do the crops good after the windy days we have been having. Spring wheat is still being seeded.

Mr. McConnell, organizer for the provincial health department, met the council of the village of Cowley and municipal district No. 70 on Saturday. At these meetings resolutions were passed, favoring the establishment of a municipal hospital district, to comprise municipal districts 39, 40 and 70, the town of Pincher Creek, the village of Pincher Station and Cowley.
